I don't know for sure, but this looks a lot like Sydney which is a total favorite or mine! Regardless, the formula of the lipstick is phenomenal.

the travel size is only 8 bucks and why the one is 10 bucks? it's just mini size!!! :/

erin
I know, the full size is normally $14!

Emily McConnell
I'm a little confused as to why it's a mini. A mini is $8 regular price, why would it be "on sale" for $10?

Dont complain am

Mara Elias
And if u do then dont shop on black friday. We cant choose the deals only they can.

Kimberly Ortega
It's Sephora the items here aren't cheap, the 8oz bottle of Purity will cost you triple year round! My bottle from last year is still in use!!! Maybe you only save $5 or so on some items but its still a discount!

Hailey DeRosa
It looks like a lot of these deals are online as well, and maybe some of the deals aren't THAT great, but if it's a product you were going to buy anyways who cares if you're only saving a little money, you're still saving money.

Iveyg
I think these deals are great especially since makeup goes bad anyway. I rather purchase the smaller items. Happy shopping ladies:)
